

How are you? I hope you are <sup>smiling</sup> with your family. I am greeting you in the name of Jesus Christ with your all family and I hope you will receive my greetings where you are in the town and me where I am. Life is so good but the climate is too hot sometimes it rains sometimes not raining.

And I live in Kakamega County Butere parish at home life is good at home there is rain than in Kisumu and also I know we have to take long holiday during corona and I was helping my mother to do work like digging washing utensils mopping the house after that I was also reading and at our home environment is clean we always wash our hand after visiting the field. My life is good I am enjoying with my life going to church reading bible when you go to church you just enjoy your life and my experience in Tumaini it's really good and we are all enjoying our life we are eating very well and I am performing well in school so that I can fulfill my dreams. But at our home we are four in number two girls and two boys I have a younger sister.

LOVED
